

Reusable Takeout Container Product Sheet

Everyone wants a reusable takeout container that can be sanitized to the highest standards and reused dozens of times. The containers need to be leak-proof, show your food beautifully and be versatile enough for your fantastic menu. Earthware's return-for-reuse containers, made of #5 Polypropylene, are considered the safest choice of all plastics.

Reusable Takeout Container Product Sheet

Why Purchase Earthware Containers?

It's the right financial decision

- Drive profits with purpose.
- Competitive pricing to single-use containers.
- No change to your operations or ordering process.
- The \$.30 deposit is applied to your order, which is then passed onto your customer.
 - Your customers then return the containers and lids to the bottle depot for a refund.

Build your brand

- We promote your business to a massive audience of sustainability conscious consumers.
- Showcase your food in higher quality containers.
- Stand out from your competition and bring in new customers.
- Multiple sizes/shapes available.
- Helps you to meet your brand's sustainability goals.

Compliant

- Compliant with government packaging bans.
- Cleaning meets and exceeds health standards.

And if all that is not enough... you are doing your part to improve the lives of your customers by reducing waste in their communities.
